BRITISH VIRGIN ISLANDS

It might be just you, the rainbow-hued iguanas and the resident flamingos on the privately-owned Caribbean isle of Guana Island. Part of the British Virgin Islands, this lesser known getaway comprises 8 white sand beaches and a nature preserve abundant with hiking paths. The all-inclusive, 18-room hotel has sun-dappled terraces, sea views and a clubby vibe that feels like you're bunking with friends.
